Ignition Keys

Key blanks for most Mini models. Choose early small key or later large key as fitted starting in mid-1970s. Large key features Leyland vortex logo molded into the grip end. Keys must be cut to match your old one by a key service.

KEY1 FS metal blank \$4.50
AAU8276A 1976-on key \$19.95

Gas Tanks

A gas tank check is a vital part of the routine maintenance for your classic Mini! A partially-full tank will condense water over time, especially if it has been sitting a while. Gasoline being lighter than water, any moisture buildup will then sit on the bottom, rusting it out.

Aluminum Four Pot Calipers

Pair of 4-pot billet aluminum calipers to fit 7.5" Cooper S brakes, and fit inside most 10" wheels. Fitted with two (2) large bleed screws per caliper for ease of bleeding the system. Includes pad retaining pins (but not brake pads). Note that there are possible clearance issues when used on hydroelastic (wet) suspension Minis. These calipers can be used with vented rotors with the addition of C-AJJ4021 spacer kit.

SBR0013 Calipers (pair) **\$589.95**
C-AJJ4021 Spacer kit **\$79.95**

Coil Spring Conversions

These sets have been installed in vintage racers as well as street cars; choose from the spring set only, or combine with adjustable struts custom-made to fit these coils. The springs give an improved ride for road cars; sets include adapter collars to use with original equipments struts; adjustable struts are aluminum and steel construction, with a water drain hole and a grease fitting. Package allows for full ride height adjustment and enables weight balancing for road/track conditions.
